## **Kuramathi Maldives Celebrates Earth Week**

For Earth Week, Kuramathi Maldives organised a week-long event that involved an island clean-up, educational visual presentations about the environment, and a guided tour of the island's precious resources. Our dedicated team members and helpful guests contributed to the success of this environmental initiative.

For Day 1, our team members split up to collect all the plastics, aluminum cans and other rubbish on the island. The next day, more than 30 certified divers participated in a clean-up dive and gathered 30 bags of garbage from the ocean. Our resident marine biologist also organised an informative presentation about "Protecting our Species." including the opportunity to get a sneak peek of marine life through a microscope. We concluded Earth Day strolling along the island's Nature Trail and visiting the Hydroponic Garden, one of our best spots. Seeing all the fresh salad greens grown on the island was one of the major highlights of Earth Day. Kuramathi Maldives harvest about 500 kilograms of different salad greens every month to serve in our guest and team member buffets.

At Kuramathi, we take pride in all our initiatives, big and small, and believe that if we all work together, our combined effort will surely benefit our environment and our beautiful planet.
